Reflection and evaluation are key to using data in a meaningful way to support organizational health and strategic planning.

Learn more about variables, filters, and analysis in [features](#).

Here are some guiding questions as an activity to support teams 'dig into the data' to review, reflect and respond.

What? So What? Now What?

Digging into the Data: review, reflect, respond

Data Review

Reflect

Respond

1 What does the **data** tell us?

What **surprised** me?

I **really like** ...

We should be **concerned** about ...

2 How can we use this data to **affirm** the work?

How can we engage the leadership to **inform short term** actions?

How can I engage the leadership to **inform strategic planning**?

3 What can I do as a Network leader in response to the data?

How often should we review the data?

How will **gaps and challenges** be addressed?

What does successful impact look like when we combine the numbers and the narrative?

I have more questions!

Digging into the Data: review, reflect, respond

Data Review

Reflect

Respond

1

My additional review question:

I still would like to know:

2

I wonder about...

I wish I knew more about ...

3

I am looking forward to:

I will check in about:

I will address this challenge by:

When we combine the numbers and the narrative, successful impact looks like

Other Evaluation Questions

Where and How did we capture and collect data?

What data are we looking at? Are there other reports to consider?

What are the Outcomes? What do we hope to achieve?

What are the indicators? What would we notice?

What are the measures? How would we know?
