Data & Data Access

Version 6

Data Access

Data in the Research Platform is only accessible to authorized users. Primary contacts receive assigned username(s) and temporary password(s). Prior to accessing data, organizations submit agreement to the Terms of Use.

Data

Data, captured by an online tool, gathers qualitative (narrative) and/or quantitative (# & %) data in real time. Data may be accessed by downloading the CSV and/or designed reports.
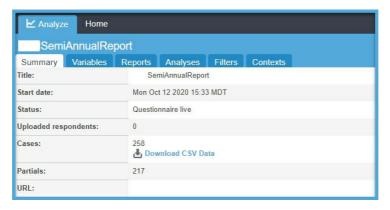

No Data

Zeros, dashes, a N/A or other message indicates that there is no data entered for this particular report or filter chosen. Re-adjust your filters and update report.

Surveys or Data Tools

Each project has unique survey or data collection tools to gather qualitative and/or quantitative data in real time. Reports are designed to support analysis. Learn more.

Tools and reports are customized for each organization
